### ▪ What skin types are treatable?

Due to Viora's advanced PCR™ technology, all skin types can be treated.

### ▪ Do treatments hurt?

With Viora's contact cooling system, that provides cooling before, during and after each pulse, our light technology treatments provide the most comfortable experiences possible.

### ▪ How long do treatments take?

Viora's PCR™ technology includes variable pulse structures, enabling rapid treatments, among the fastest in the industry. Exact treatment time depends upon the specific application, each individual patient's condition, and the specific area that is being targeted for treatment.

### ▪ When will I see results?

While each person is different, results for light technology treatments can be seen after the first session.

### ▪ How many treatment sessions will I need?

Typically the number of treatment sessions range from 4-6 treatments, depending upon the actual application needed, and each patient. Please consult with your practitioner to better understand your individual needs.

### ▪ How long do the results last?

One maintenance session is generally recommended every 3-6 months, or as required. Your practitioner can advise the best interval time, for your specific needs.

*"When my aesthetician offered acne clearance treatments that wouldn't require a loan to fix, I was a bit hesitant. I was really surprised though; the treatment results were astounding and the fact that I could afford to improve my lifestyle was priceless."*

Sharon

*"I didn't have much hope in feeling like a regular person. For the past 31 years, I was used to being looked at as different because of the red pigmentation on my nose. Using Viora's pigmentation treatments, I couldn't believe how easy it was to treat and reduce the size of the mark. After only one session, it already started to disappear. Today I'm a new person!"*
